Static Content

Pixel Size is : 1880 (w) x 450 (h)
Format : Jpeg RGB

In Photoshop, when creating your artwork at the correct pixel size DO NOT edit the resolution (pixels/inch) afterwards as this will increase the pixel size. The pixel size must be maintained.

If you edit the resolution (pixels per inch) field and therefore, change the pixel size, the file will be unusable and subject to resupply at the correct pixel size.
