

Shoreditch High Street London

Static Content

Pixel Size is : 1184 (w) x 288 (h)
RGB Format :Jpeg

1184 (w)

288 (h)

In Photoshop, when creating your artwork at the correct pixel size DO NOT edit the resolution (pixels/inch) afterwards as this will increase the pixel size. The pixel size must be maintained. If you edit the resolution (pixels per inch) field and therefore change the pixel size the file will be unusable and subject to resupply at the correct pixel size.

PLEASE DELIVER COPY TO -
cityoutdoor@uniledsolutions.com

Copy must be labelled with the **Campaign Name, Screen Name & Start Date** and delivered 5 working days before the start date.
